16/05/2022. Viva! Festival announces the single days' line up of the sixth edition: from 4th to 7th of August the Apulian festival will bring some of the most prestigious and interesting artists of the national and international music scene to the Valle d'Itria.

Subscriptions are available for the four days of the festival with a line up of exceptional protagonists: the multi-instrumentalist, rapper and producer **Alfa Mist**; the brilliant producer, musician and DJ **Floating Points** who moves between electronics and symphonic jazz as in the award-winning latest album "Promises"; **Gilles Peterson**, historical British DJ, inventor of acid jazz in the 90s and careful discoverer of new global rhythmic sounds, after years on the BBC and now through his Worldwide FM radio; beloved by the most attentive fans of sophisticated dance the DJ **Hunee**; the award-winning British composer **Jon Hopkins** who amazed critics and audiences with his latest work "Music for Psychedelic Therapy" relaunching ambient music in the discography; the London-based Jazz and Afrobeat collective **Kokoroko** who, even before the debut album out this summer, has already collected important prizes and awards; the **Moderat**, a supergroup symbol of the German electronic scene formed by the merger of Modeselektor and the highly esteemed producer Apparat; the British **slowthai** star who will present his latest album "Tyron"; the eclectic and highly anticipated **The Cinematic Orchestra**, now a cult in the scene; the English singer-songwriter who moves between experimental electronic and pop art **Tirzah**; New York hip hop intellectual Mos Def, acclaimed rapper and actor now known as **Yasiin Bey**; the Sardinian singer-songwriter and producer **Bluem**; producer and multi-instrumentalist Nu Jazz **DayKoda**; the Manchester duo **Space Afrika**; the multifaceted **Elkka**; Italian DJs duo **Tiger & Woods**; the historic DJ and composer from Bari **Nicola Conte**; the new promise of Italian jazz and neo-soul **LNDFK**; the DJ **Z.I.P.P.O** presenting **Jima Fey**.

A program of original live shows and shows that will animate one of the most fascinating territories in Southern Italy, the Valle d'Itria starting from the stage located in the enchanting **Masseria Grofoleo in Locorotondo** -

where the lives of August 4th, 5th, 6th will be held in addition to the closing party on Sunday 7th - and in the magnificent beach of Cala Masciola which will be the setting for a concert at dawn on Sunday 7th August.

The intertwining of ancient and modern, avant-garde and tradition, is the figure that has always distinguished the Apulian festival. **VIVA! Festival** fits into a context with a unique identity, rich in culture and landscape and architectural beauties, of which it celebrates and enhances the different souls by proposing a contemporary program while maintaining a strong bond with the roots and history of the area.

Over the years the event has hosted the performances of some of the most significant artists of the electronic and alternative international scene, recording a great success with the public - Italian and European - for one of the most interesting and anticipated festivals in the Peninsula.

THE LINEUP

Alfa Mist was born in Newham, United Kingdom. His musical production is profoundly influenced by the sounds of the environment he comes from, including grime, hip-hop, up to the most various subgenres of black music. "Bring Backs", his latest album, released in 2021, is his first release for the Anti label and sees the artist face new challenges: nine tracks inspired and linked by a poem by Hilary Thomas that tell the creation and building a community in a new country.

"Promises", the latest **Floating Points** album, contains a 46-minute piece composed with Pharoah Sanders and the London Symphony Orchestra. Released in March 2021, it was hailed as one of the greatest modern jazz albums by Resident Advisor and received critical acclaim around the world including the New York Times and Guardian. Floating Points is considered a guarantee thanks to its ambitious and forward-thinking DJ sets in which it mixes different and unexpected genres. His love for discovering records from all over the world is reflected in his eclectic DJ sets ranging from one hour to all night.

Dj, producer, record artist, collector: **Gilles Peterson** is a unique character on the world scene. It would be enough to mention the record labels he founded and directed (Acid Jazz, Talkin 'Loud, and now Brownswood). His passion and enthusiasm for quality music are infectious, as anyone who listens to him on BBC 6 Music or his web radio, Worldwide FM, knows.

Dj with a vast musical culture, tireless researcher and crate digger like few other console performers in the world, **Hunee** is undoubtedly one of the most talented artists on the current world electronic scene. Disco, funk, house or techno, his sets are embellished with great little gems of African or South American music, works as rare as they are enthralling.

Recently cited by the New Yorker as "one of the most celebrated electronic musicians of his generation", **Jon Hopkins** is a classically trained DJ, instrumentalist, producer and composer whose solo and collaborative works have received wide acclaim, as well as Grammy nominations, at the Mercury Prize and Ivor Novello.

Kokoroko, following the huge success of their viral debut song "Abusey Junction" and most recently the hilarious "Baba Ayoola" in 2020, are back with the singles "Something's Going On" and "We Give Thanks" in 2022.

Winners of the "Best Group" at the Urban Music Awards 2020 and the Parliamentary Jazz Awards 2021 and lauded on the NPR Austin 100 list, Kokoroko specialize in shaken soul sounds. After playing in the UK's biggest festivals, they can't wait to get the whole world to dance.

Recently returned with the new single "More Love", **Moderat** are an electronic music supergroup born in Berlin in 2002, the result of the collaboration between Sascha Ring, better known as Apparat, and Gernot Bronsert and

Sebastian Szarzy members of Modeselektor. The eclectic German project is back live in Italy to support the release of their new album "MORE DATA", scheduled for May 13th.

TYRON, **slowthai**'s latest record, presents the artist at his best. Emblematic of all that can be categorized as "unorthodox", to distinguish him from his peers is the characteristic pained sound, a hybrid between Grime in his childhood and a coarseness comparable to the punk era of London Calling. It could be said that slowthai is the British artist par excellence.

The Cinematic Orchestra project has always challenged categories and conventions. Not an orchestra or a band, not a pure jazz project but full of its influence, not electronic but originally rooted in a London electronic scene. Musical trends come and go, but The Cinematic Orchestra - formed by founder Jason Swinscoe and longtime collaborator and friend Dominic Smith - has always rejected compromise, bowing to classification, following convention.

With the latest album "Colourgrade", written and produced in a year and a half and released in 2021, the neo-RnB singer-songwriter from South London **Tirzah** has set her privacy and privacy together with the love of a parent to music. for a son. The record was worked with collaborators Mica Levi and Coby Sey, already alongside her in the making of "Devotion", flanked by producer Kwes.

After starting his hip hop career in 1994 with Urban Thermo Dynamics, **Yasiin Bey** formed the Black Star duo, along with fellow Brooklyn rapper Talib Kweli, releasing their self-titled debut album in 1998. After joining the roster of Rawkus Records, in 1999 he released his first solo work, Black on Both Sides. About.com named him the 14th best MC of all time on their list of the "50 Greatest MCs of Our Time". Some of Mos Def's best hits include "Oh No", "Definition" and "Respiration". In 2022 Black Star releases a new album - No Fear of Time - the first album in 24 years - available only in streaming on Luninary.

BLUEM is the project of Chiara Floris, a young singer-songwriter always traveling between Italy (in particular her Sardinia) and London. After conquering critics and insiders with the album "NOTTE" in 2021, in November 2021 a new single was released, Fiamme, while in January 2022 BLUEM performed at ESNS (Eurosonic Noorderslag). In March she released her latest single UMMA, a hypnotic journey focused on electronic club sounds.

DayKoda, the stage name of the producer and DJ Andrea Gamba, explores the fields between slow-mo beat, downtempo and Nu Jazz, moving in an almost abstract way between introspective textures and downtempo productions influenced by jazz and beat music. Daykoda's discography includes 2 EPs and 2 albums released by OriKami Records and BMR, as well as various collaborations with promising emerging artists. Andrea is extremely active on the music scene through radio appearances and live performances, including events such as Linecheck, Fano Jazz and Spring Attitude Wave.

London-based **Elkka** is an artist who started her career as a songwriter and evolved into an eclectic producer, DJ and head of label. Her music comes from the contamination between house, electronics, percussive rhythms and dreamy voices. When she performs she immerses herself in her art of hers: from high-energy DJ sets to her highly engaging live show.

LNDFK is a producer and songwriter, daughter of two different cultures, an Italian mother and an Arab father, who grew up in Naples. Her music absorbs the influence of jazz, neo-soul and hip-hop, all filtered through his wealth of experience and her sensitivity. "Kuni" is her debut LP, co-produced with Dario Bass and released by the New York label Bastard Jazz and licensed in Italy by La Tempesta: a debut with which the artist conquered audiences and specialized critics.

The musician **Nicola Conte** returns to the Festival. Conte is inspired by the Italian music of the sixties and seventies, then ranging from the bossa nova to the jazz tradition, which he proposes in his sets in a skilful and sophisticated way.

The Manchester duo **Space Afrika** sets what they call "overlapping moments" to music: oblique mosaics of dialogue, rhythm, texture and shadows, heard through a bus window on a rainy night. "Honest Labor," the duo's latest LP, expands the project's palette with classic strings, sparkling guitars and visionary vocal cameos, pushing further in their enigmatic fusion of ambient turmoil and cosmic downtempo.

Tiger & Woods is a DJ / producer duo formed by Marco Passarani and Valerio Del Prete. Over the years they have taken their set around the world, from Coachella to Primavera Sound. The combination of their elements has created a sound made of a constant search between historical samples mixed with repetitive grooves that adapt old ideas to the contemporary dance floor.

From an early age, **Z.I.P.P.O** had the urge to create music that inspired others in the way his favorite records inspired him. Giuseppe made his DJ debut at the age of 15, playing at club parties in Southern Italy. With his eclectic mix of music, he's an energetic personality behind the console, stepping away from any trend by setting each set according to the vibe of the dance floor.

VIVA! Festival is organized by Turné and 3D Agency in collaboration with the Municipality of Locorotondo, the Municipality of Fasano, the Puglia Region, Pugliapromento, Puglia Sounds.
